

November 21, 2016

Transko Electronics Inc. is proud to announce the acquisition of the assets of Cal Crystal Lab Inc. / Comclok (Cal Crystal), a manufacturer of quality precision crystals and oscillators since 1969. The acquisition of Cal Crystal allows Transko to expand its existing product line by adding Cal Crystal's full line of products. The combined resources will allow Transko to provide more complete and affordable solutions by increasing operational efficiency and presence in new markets.

For existing Cal Crystal customers, Cal Crystal will continue to operate during the transition period with the same staff you are familiar with under the Transko brand. All existing open orders will be fulfilled by Cal Crystal under Transko's authority.

Effective November 30, 2016, Cal Crystal's existing facility at 1165 N. Redgum St Anaheim, CA 92806 will be closed. All operations will be relocated to the following location.

Transko Electronics Inc / Cal Crystal Comclok
3981 E. Miraloma Ave
Anaheim, CA 92806
phone number (714) 528-7904

Please update your records to reflect this change.
